982	5/29/2020 13:31:50	Hi folks. Just hold 8pm on your calendars for now. In particular, if there's any new intel from SPD, we may want to just hop on for a quick min to level set anything emergent. If there isn't anything substantial to discuss, then we can forget the call and just update this text thread for any situational updates. Looking to Chief Best and A/C Hirjak on that ahead of 8pm. Laurel, I assume you will initiate the activation of of the EOC for the initial operation period anticipated. If anyone on call feels need for a huddle up at 8, please indicate on this thread. 1058	5/29/2020 22:51:18		As a quick summary (and hoping events are minimizing): It looks like there are minimal events currently occurring? From reporters and footage from reporters on sites, it appears no serious injuries from either protestors or officers, but let us know if there may have been Officer assaults that led to arrests. And no property destruction except for Amazon Go and neighboring building and vehicle to my understanding. As someone who was watching live, it seems like officers significantly de-escalated a growing violent situation quickly. 490	6/9/2020 7:19:39		Good morning. Just wanted to check in on three quick things (and of course entirely subject to your thoughts on ops plans and approach for today/tonight): 1) talked with SDOT and Sam Z. about engaging SPD early this morning on options related to those orange and jersey barriers placed out front of E. precinct. Clearly removable within minutes. Would like a sense of game plan on that. 2) the boarding of upstairs windows just didn't get done due to some timing and supplies issues - is there a need to mobilize FAS/SDOT early to get these completed? 3) security cameras were covered, is there any support you need to address that issue? Thanks. - Fong	Hirjak, Stephen	220	chat75015266470067227	+12062558889 Carmen Best +12066393647 Mike Fong +1206 (S) Tom Mahaffey steven.hirjak@seattle.gov Stephen Hirjak (owner)	+12066393647 Mike Fong
